PORTFOLIO · 2026

Diamond Rogers

Marketing Professional

Ideas. Craft. Impact.

Hi, I'm Diamond.

I'm a marketer, data analyst, and content creator who helps brands grow through smart strategy and clear insights. I create marketing campaigns, social content, websites, and data dashboards that turn numbers into decisions and ideas into results.

EDUCATION

MS, Information Technology Management
Western Governors University

BBA, Marketing
Mississippi State University

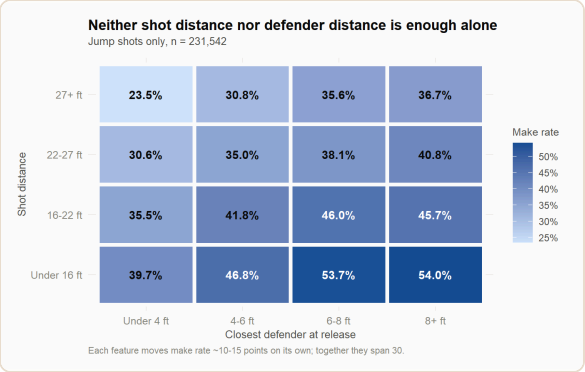

Qualified In

4 years across government compliance, operations management, and digital marketing

BUSINESS ANALYSIS	MARKETING	DATA & OPERATIONS
Requirements gathering	Digital marketing strategy	Data analysis
Gap analysis	Facebook Ads campaigns	Predictive modeling in R
Process documentation	Email marketing	KPI dashboards & reporting
Process improvement	A/B testing & segmentation	Team leadership (100+)
Compliance tracking	Brand & content creation	Cross-functional communication
Stakeholder management	Website design	Remote collaboration

Featured Work

Four projects across data, design, and content

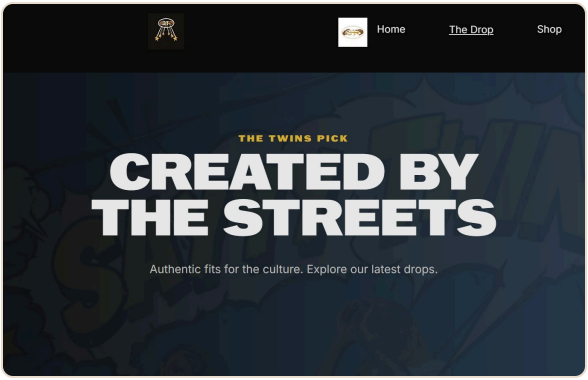

DATA ANALYSIS

Player Statistics for OKC

A gradient-boosted model in R that predicts the probability an NBA shot goes in. Tested on a season it had never seen, it beat the league-average baseline and produced well-calibrated probabilities.

R · xgboost · Data visualization

View Analysis

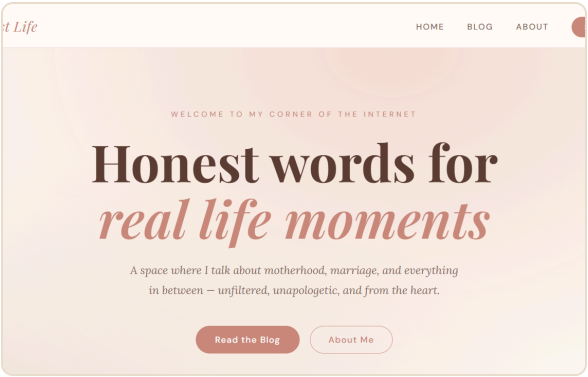

WEB DESIGN · E-COMMERCE

SayTwin Ecommerce Website

The full brand website for SayTwin streetwear, built on Wix: product pages, collection showcases, a limited-release drop page, cart and checkout, and mobile responsive design, plus launch graphics.

Wix · Canva · Blender

View Portfolio · saytwin.net

CONTENT · BLOG

“Her Honest Life”

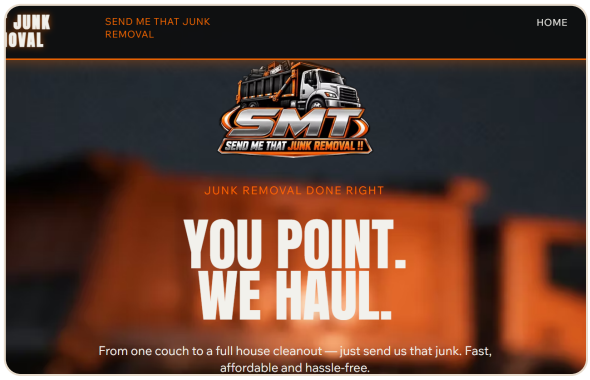

A personal blog about life as a first-time mother and wife, written and run by me.

Writing · Content creation

Featured Work

Client web design

WEB DESIGN · CLIENT PROJECT

SMT Junk Removal Website

A one-page service website for a local junk removal business, built on Wix: a bold hero section, services grid, three-step “How It Works” section, and a free-quote request form designed to turn visitors into booked jobs.

Services / Strengths

01

Web Design & Brand Marketing

I design websites and marketing assets that help small brands look established. For SayTwin, I built the full Wix storefront, product pages, and launch graphics using Canva and Blender.

02

Data Analysis & Modeling

I turn raw data into clear answers using R, predictive modeling, and data visualization. My NBA shot model was tested on a season it had never seen and produced well-calibrated, trustworthy probabilities.

03

Digital Marketing & Campaigns

I run paid social and email campaigns that are tested and tuned, not guessed. I've managed Facebook Ads across multiple client accounts and used A/B testing and audience segmentation to improve open and click-through rates.

04

Process Improvement & Operations

I find the gaps in a process and fix them before they cause problems. I've managed compliance data across 100+ active cases with zero errors through a policy change, and led daily operations for 100+ associates using KPI dashboards.

TOOLS

R · xgboost · Microsoft Excel · Word · Outlook · Google Workspace · Facebook Ads Manager · Email marketing & A/B testing · Wix · Canva · Blender · Asana · Trello
