DIAMOND ROGERS

Website Design & Brand Development

A portfolio of website design and brand marketing work, featuring work for the SayTwin streetwear collection.

PORTFOLIO

Selected Work

I design and build clean, modern websites and brand assets for small businesses and growing brands. This portfolio highlights recent design work, including full brand website builds and marketing asset creation for the SayTwin streetwear collection.

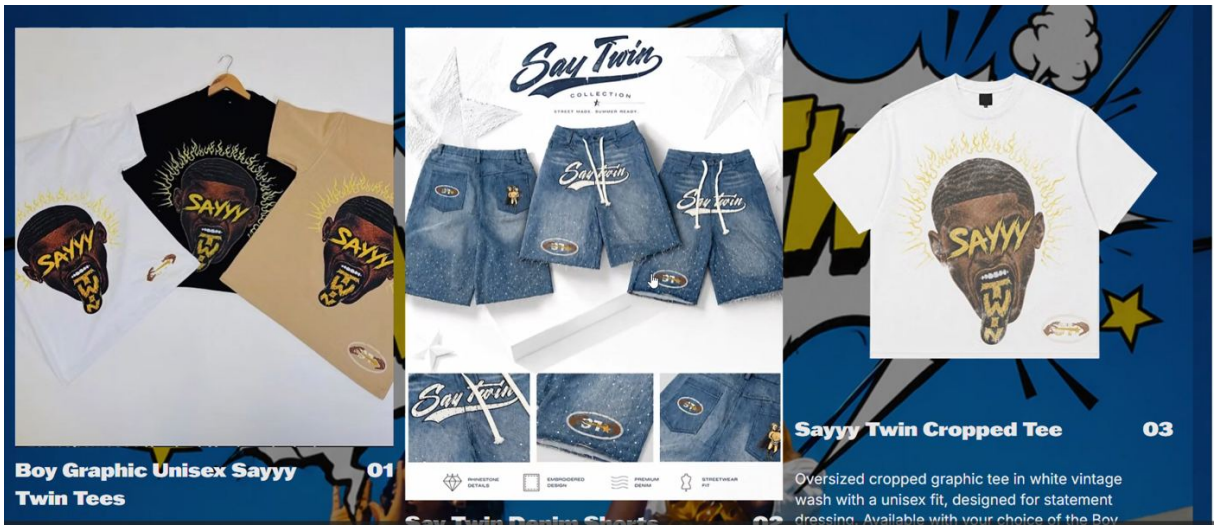

TOOLS Wix · Canva · Blender

01

SayTwin Streetwear Brand

Website build & product page layout

Designed and launched the full brand website for SayTwin (built on Wix), including product page layout, collection showcases, and mobile responsive design.

Multi-product showcase layout featuring the SayTwin tee collection, denim shorts, and cropped tee.

Say Twin Denim Collection

Full page marketing design

02

Designed a full collection marketing page for the Say Twin denim shorts drop, including branded header, detail close ups, and feature icons highlighting product quality.

Graphic Tee Drop Banner

Before & after promotional asset

03

Transformed raw product photography into a polished, on brand promotional banner for the “Graphic Tee Drop” collection launch.

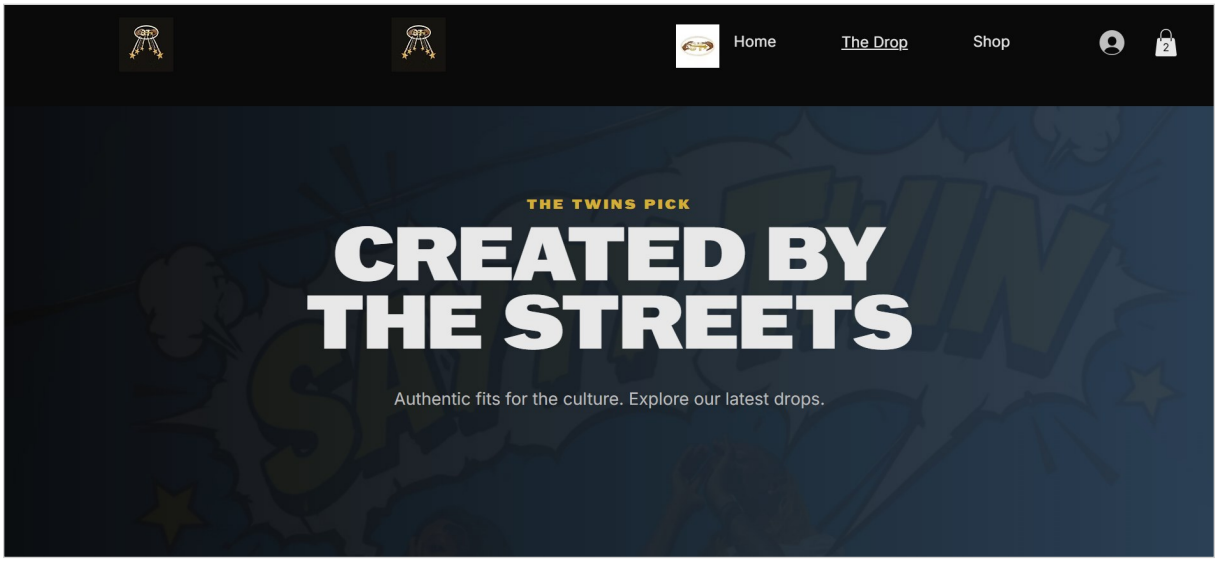

04

SayTwin.net Live Storefront

E-commerce homepage & product drop

Launched the live SayTwin storefront with a bold streetwear look: a full-width hero section, branded navigation, and a featured "New Drop" collection page for limited releases.

Homepage hero with branded navigation, cart, and "Created By The Streets" headline.

"The New Drop" limited release section featuring graphic tees and denim shorts.

05

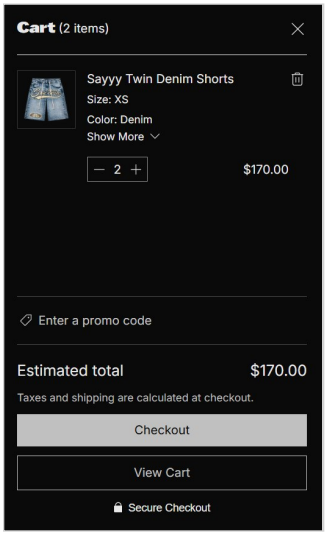

Shopping Cart & Brand Footer

Checkout flow & site-wide branding

Set up the store's shopping cart and checkout experience, plus a custom footer that carries the SayTwin logo artwork, social links, and brand name across every page of the site.

Site footer with SayTwin logo artwork, Instagram and TikTok links.

Cart & checkout

- Slide-out cart drawer with product thumbnail, size and color details
- Quantity controls and live price total
- Promo code field for drops and discounts
- Secure checkout button and View Cart option
- Dark theme to match the brand look

Cart drawer with quantity, total, promo code, and checkout.
